

CALL FOR NOMINATIONS:

2018 Chemometrics and Intelligent Laboratory Systems Award

The 2018 Chemometrics and Intelligent Laboratory Systems Award will be presented in 2018 to a chemometrician, younger than 40 years of age, who has contributed significantly to the development of chemometrics in the last 5 years. This prestigious award was established to stimulate the careers of young scientists by recognizing noteworthy accomplishments in the field. This is the ninth time that this award is given and it will be delivered during the celebration of the Chemometrics in Analytical Chemistry meeting (Halifax, Canada, 25-29th June, 2018).

XVII Chemometrics in Analytical Chemistry, CAC 2018 conference in Halifax Canada,
<https://www.cac2018halifax.com/>

The winner chosen by a selected committee of leading international scientists in the field of chemometrics, will receive EU€ 2,000.00 (two thousand European Euros), and a framed certificate. The awardee is selected by the committee based mainly on one or more outstanding scientific papers, but contributions to the field of chemometrics in another form will also be considered.

Members of the chemometric research community are encouraged to nominate individuals of appropriate standing (no self-nominations). The nominator should include a statement of support and two additional letters of support are permitted. There are no restrictions of nationality or professional affiliation. The application deadline for the 2018 award is **20th April 2018**. Nominations, including up to three supporting letters and a complete résumé of the nominee to the Chemometrics Committee by e-mail: chemoawards@elsevier.com

Award Committee:

Romà Tauler, *Editor-in-Chief, Chemometrics and Intelligent Laboratory Systems.*

Beata Walczak, *Editor, Chemometrics and Intelligent Laboratory Systems.*

Phil Hopke, *Editor, Chemometrics and Intelligent Laboratory Systems.*

Eun Sug Park, *Editor, Chemometrics and Intelligent Laboratory Systems.*

Lutgarde Buydens, *Editor, Analytica Chimica Acta.*
